StarServe Home Network Package

8000PKNE

The 8000PKNE StarServe Home Network package is a complete StarServe system, featuring video distribution, phone / fax distribution and AC power sockets. The system also features capacity for Data Networking.

The unit is supplied with the following:

- 1 x 8073/8VHPIR, StarServe Video Distribution Hub, with IR
- 2 x 8052/4RJ, StarServe Harmonica, 2 lines in / 4 x 2 lines out
- 2 x 8058/8RJ, StarServe Harmonica, 8 lines in / 1 x 8 lines out
- 1 x 8000PEN StarServe Pro Enclosure

The 8073/8VHPIR StarServe Video Hub provides whole-house video distribution for Antenna and CATV signals at up to eight television locations. The hubs include two modulator inputs to add locally generated channels (for example, front door cameras, DVDs and VCRs).

The 8073/8VMPIR StarServe Video Hub also includes an integrated infrared engine that allows control of any video device from any location in the house (when used in conjunction with StarServe Infrared Targets and Infra-red Emitter).

The 8052/4RJ StarServe Harmonica is a Category 5, 8 way mini-patch panel suitable for voice applications. The unit accommodates 4 incoming phone lines, which may be distributed in pairs up to 4 locations.
The 8058/8RJ StarServe Harmonica is a Category 5e, 8 way mini-patch panel suitable for voice and/or data applications. The unit incorporates 8 individually terminated lines, which may be distributed to 8 locations via modular socket outlets.

For further information on the 8073/8VHPIR, 8052/4RJ, 8058/8RJ, refer to their respective Technical Leaflet or Installation Instruction Leaflet.

The 8000PEN enclosure incorporates a removable hinged door allowing easy access. The unit also has an optional flush mounting surround, enabling the unit to be flush or surface mounted.

The 8073/8VHPIR simply 'hooks on' to the mounting grid fitted to the enclosure whilst the 8052/4RJ and 8058/8RJ are mounted directly to enclosure.
