StarServe Home Office Package

8000PKFF

The 8000PKFF StarServe Home Office package provides several communication technologies to cater for the professional couple or busy family. The Home Office package distributes video, data and voice services throughout the home. The system also features an 95ESWP10 Clipsal Ethernet Switch.

The unit is supplied with the following:
- 1 x 8072/6VHP, StarServe Contractor Series Video Distribution Hub
- 1 x 8052/4RJSMB, StarServe Voice Harmonica, 2 lines in / 4 lines out
- 1 x 8058/8RJSMB, StarServe Data Harmonica, 8 lines in / 8 lines out

- 1 x 8058/8RJDMB, StarServe Data Harmonica, 8 lines in / 8 lines out
- 1 x 95ESWP10 Clipsal Ethernet Switch
- 1 x 8000MEN StarServe Mid Enclosure
- 1 x 8000DHMB Universal Mounting Bracket.

The 8072/6VHP StarServe Contractor Series Video Hub provides whole-house video distribution for Antenna or CATV signals at up to six television locations. The hubs include a modulator input to add locally generated channels (for example, pay TV, DVDs or VCRs).

The 8058/8RJSMB StarServe Harmonica is a Category 5e, 8 way mini-patch panel suitable for

voice and/or data applications. The unit incorporates 8 individually terminated lines, which may be distributed to 8 locations via modular socket outlets.

For further information on the 8072/6VHP, 8058/8RJSMB, 8058/8RJDMB, refer to their respective Technical Leaflet or Installation Instruction Leaflet.

The 8000MEN enclosure incorporates a removable hinged door allowing easy access. The unit comes supplied as a surface mount unit, with an optional flush mounting kit available when required.

The 8072/6VHP and Harmonicas simply 'hook on' to the mounting grid fitted to the enclosure.
